Used to control the output printing.

(i) Sections

Suppress warnings.

Don't evaluate code blocks.

Hide code blocks.

Hide results.

Hide figures.

Print only part of the output result. To find the number of lines, try using a text editor such as Sublime.

Set figure captions and labels.

Set figure height and similar properties.

Conclusion of methods.

Sample text:

Considerations for model building: `block` and `Machine` should be included in the model. Use **cv.glmnet{glmnet}** to choose penalty parameter.

Residual Diagnostics: Residual plots are as shown in Figure **??**.
